PROFESSIONAL SUMMARY

Results-driven aspiring Data Analyst with expertise in transforming raw data into actionable business insights. Proficient in Power BI, SQL, Python, and Excel with hands-on experience in data modeling, DAX calculations, interactive dashboard development, and data storytelling. Completed multiple industry simulations with leading firms including Tata and Deloitte, demonstrating practical application of data analytics and visualization techniques. Seeking to leverage analytical skills and technical expertise to drive data-informed decision-making at Deloitte.

TECHNICAL SKILLS

Data Visualization: Power BI (DAX, Data Modeling, Interactive Dashboards), Excel (VLOOKUP, HLOOKUP, Pivot Tables,)

Programming & Database: SQL (Query Optimization, Joins, Aggregations), Python (Pandas, Data Manipulation)

Analytics & Tools: Data Analysis, Statistical Analysis, Data Storytelling, Business Intelligence

Cloud & Emerging Tech: Cloud Computing, AI Agent Automation,

Core Competencies: Problem Solving, Analytical Thinking, Communication, Time Management

EDUCATION

Bachelor of Computer Application

Expected: May 2026

Shanmugha Arts, Science, Technology & Research Academy (SASTRA), Kumbakonam

CGPA : 7.00/10.00

PROFESSIONAL CERTIFICATIONS

Deloitte Australia – Data Analytics Job Simulation

Career Essentials in Data Analysis – Microsoft & LinkedIn

Tata – GenAI Powered Data Analytics Job Simulation

Tata – Data Visualisation: Empowering Business with Effective Insights Job Simulation

PROJECT EXPERIENCE & SIMULATIONS

Deloitte Australia Data Analytics Simulation

Virtual Experience Program

- Performed comprehensive data analysis using SQL queries to extract insights from relational databases
- Conducted exploratory data analysis using Python Pandas to identify business opportunities and risks
- Delivered data-driven recommendations through structured reports and visualizations for client presentations

Tata Data Visualisation Simulation

Virtual Experience Program

- Created interactive Power BI dashboards to visualize key business metrics and KPIs for executive stakeholders
- Designed data storytelling frameworks that translated complex data into clear, actionable insights
- Implemented DAX calculations and data modeling best practices to ensure accurate reporting and analysis

Tata GenAI-Powered Data Analytics Simulation

Virtual Experience Program

- Leveraged GenAI tools to analyze complex datasets and extract meaningful business insights for strategic decision-making
- Developed automated data processing workflows that improved efficiency in data analysis pipelines
- Applied advanced analytics techniques to identify trends, patterns, and anomalies in large-scale datasets

HR Analytics& Employee Attrition Dashboard | Power BI, DAX, Power Query

- Developed an interactive Power BI dashboard to analyze employee attrition
- Identifying mitigation departments (R & D: 56 %, Sales: 39 %) which enabled management to implement targeted retention strategies and strategic workforce planning
- Translated complex HR data into actionable performance metrics (e.g., 16 % attrition rate) to support data-driven decision-making, management reporting and risk mitigation initiatives.

KEY ACHIEVEMENTS

- Completed four industry-recognized data analytics simulations demonstrating practical skills in BI and analytics
- Developed proficiency in Power BI with focus on creating business-ready dashboards and reports
- Built strong foundation in SQL and Python for data manipulation, analysis, and automation
- Acquired hands-on experience with GenAI tools for enhancing data analytics workflows and productivity
